

# WORKPLACES & CORPORATE INTERIORS

## PORTFOLIO

# ABOUT US

Furniture that works hard,  
and plays even harder.

Venue Industries has been furnishing workplaces & corporate interiors for over ten years now. We offer custom furniture design, dealer & design support, space-planning and logistics. Our diverse product mix makes us an easy choice for projects with a variety of needs. Whether you're working on a corporate suite or a chain of car dealerships, you can rest assured that we can create for your space.

## BeautyBio Headquarters

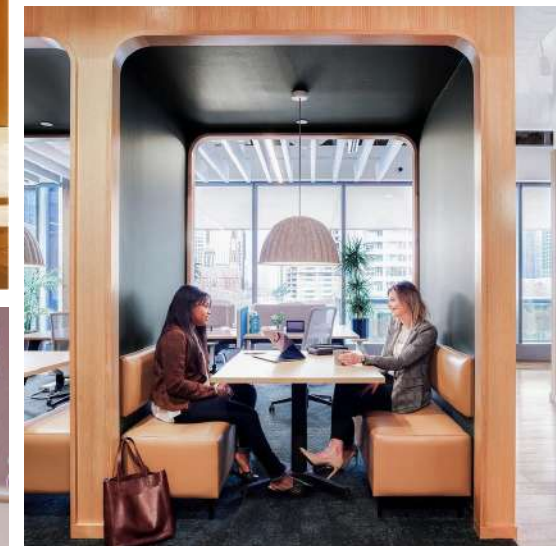

BeautyBio, a science-based skincare company, headquartered in Dallas, Texas was clearly 'thinking pink' with their design intent. We created a custom four-sided sofa, a channeled banquette and custom ottomans for this woman-owned company.

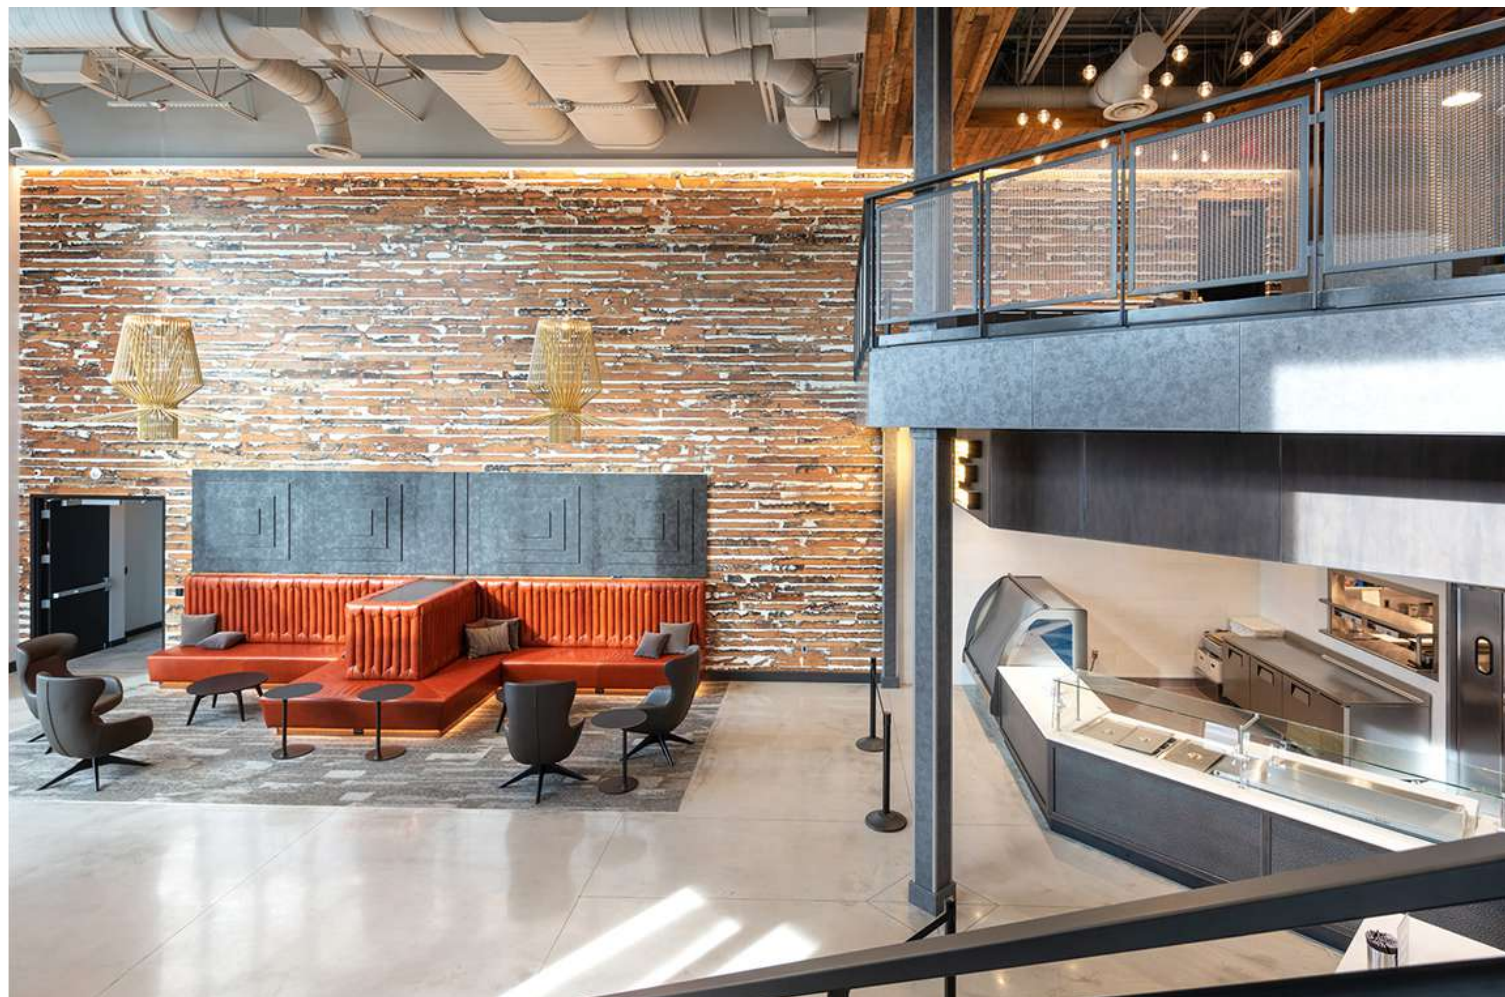

## Hana: Co-working Spaces

Hana is a collection of co-working spaces across the United States and the United Kingdom. Hana's co-working locations are designed to support the needs of small companies and individuals. We have provided a mix of custom & standard products for 6 of their locations.

## Power Design

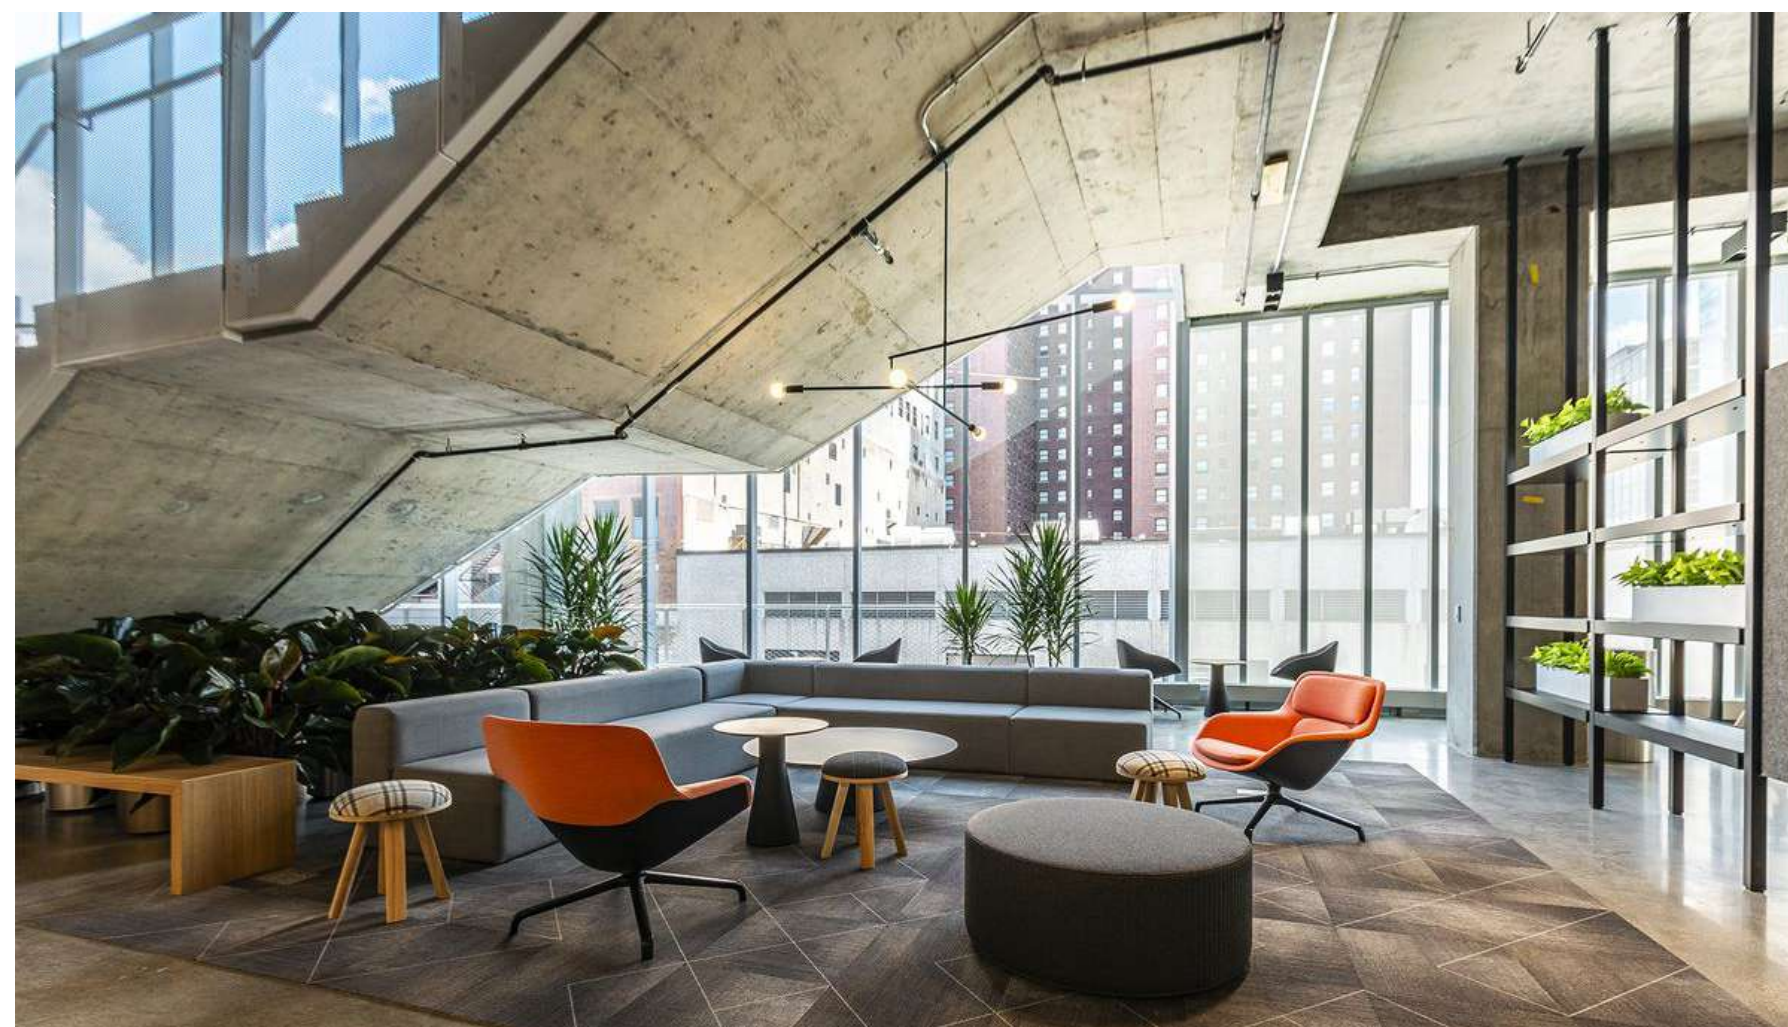

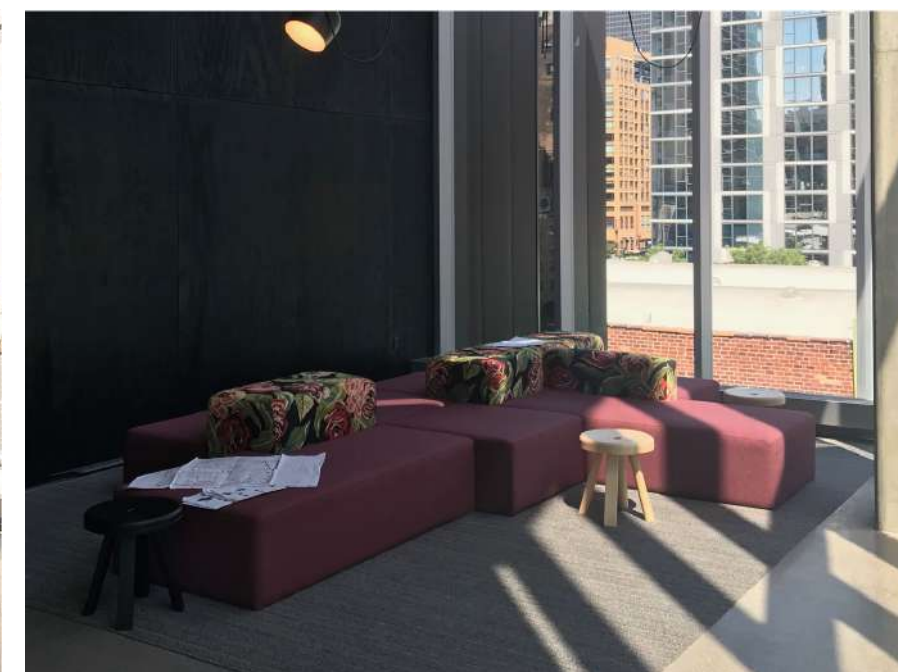

Power Design, an electrical contractor, needed a vivacious cafe and lounge area for their 3,400-square-foot dining area. The Surge Cafe was designed to be a focal point for this campus' headquarters. We created a bold & attention-grabbing banquette with offset vertical channeling, power outlets and LED lighting above the toe kick for this project.

## Columbia College: Student Center

Columbia College saw a need for a new student center that could serve multiple purposes. The client had specified three modular seating arrangements that would go in common areas around the student center. From those specifications, we created unique furniture groupings that could be rearranged to form a multitude of seating arrangements.

## Divvy Pay

Divvy Pay's company size grew by 500% in 2018 so they decided to build larger headquarters in 2019. We worked alongside Henriksen Butler to provide custom booth seating for their employee cafe and dining area. The custom furniture grouping is a combination of ten circle booths with vertical channeling and filler panels. We also created two round banquettes with diamond-tufting for this location.
